PROFESSIONAL SUMMARY

Frontend Developer with 3+ years of professional experience specializing in Angular, TypeScript, RxJS, NgRx, and modern web architectures. Experienced in building scalable Single Page Applications (SPAs), reusable Angular components, responsive interfaces, and RESTful API integrations. Skilled in Reactive Forms, application routing, state management, and performance optimization, with experience delivering healthcare, business, lifestyle, and AI-powered web platforms.

TECHNICAL SKILLS

Angular Ecosystem: Angular (12–21), Angular CLI, Standalone Components, TypeScript, RxJS, NgRx, Angular Material, PrimeNG, Angular Forms, Reactive Forms, HttpClient, Lazy Loading, Dynamic Routing.

Web Technologies: JavaScript (ES6+), HTML5, CSS3, SCSS, Tailwind CSS, Bootstrap, JSON, Responsive Design.

Architecture & Tools: Nx Monorepo, RESTful APIs, API Integration, Git, GitHub, Postman, Figma, Linux (Zsh), Unit Testing, Agile/Scrum.

Performance & UI: GSAP, ScrollTrigger, Code Splitting, Lighthouse Optimization.

WORK EXPERIENCE

Angular Developer | Mar 2024 - Present

Dopave (Full-time, Hybrid) | Cairo, Egypt

- Architected multiple complex healthcare dashboards using Angular 16 and implemented responsive interfaces based on Figma designs within an Nx Monorepo.
- Integrated RESTful APIs using Angular HttpClient, managing asynchronous data flows with RxJS and optimizing API interactions across key dashboards.
- Built and validated complex forms using Angular Reactive Forms, implementing dynamic fields and client-side validation for business workflows.
- Developed secure authentication and application navigation flows using Angular routing, including custom logic to prevent backward navigation to login and registration screens after authentication.
- Built a library of 15+ reusable Angular components using Angular Material and PrimeNG, reducing code duplication and accelerating feature delivery across the team.
- Used Postman to test and validate REST API endpoints during frontend development and integration.

Angular Developer | Jun 2025 - Nov 2025

Cairah (Part-time, Remote)

- Drove frontend development for AI-powered web interfaces using Angular, TypeScript, and SCSS.
- Implemented advanced UI/UX features with GSAP and SCSS, ensuring responsive design across all viewports.
- Developed complex layout components, including a custom Swiper display that maintains center-card expansion by default.
- Integrated RESTful APIs to dynamically retrieve and display backend-driven content, including personalized Q&A results based on user inputs.
- Implemented Reactive Forms with validation and API integration for Early Access Request and Feedback forms.
- Enhanced Angular routing and on-page SEO structure for the platform's public-facing pages.

Frontend Developer | Feb 2023 - Sep 2023

Sahm (Full-time, On-site) | Cairo, Egypt

- Built and maintained reactive user interfaces using Angular, TypeScript, and semantic SCSS, delivering pixel-perfect responsive layouts based on Figma designs.
- Developed and optimized a complex POS (Point of Sale) system, implementing caching strategies and local state management for offline capability and seamless transactions.
- Engineered reusable Angular directives and components, accelerating frontend development velocity and improving page load times.
- Collaborated closely with UI/UX teams to implement strict design systems, ensuring visual consistency, cross-browser compatibility, and accessibility standards (WCAG).
- Managed complex dynamic forms using Angular Reactive Forms with custom async validators for real-time data validation and instant price/tax calculations within the POS.

Freelance Frontend Developer | Jan 2023 - Feb 2024

Independent Contractor (Part-time, alongside full-time roles)

- Delivered 6+ SPA projects across healthcare, education, and logistics using Angular and Bootstrap.
- Implemented SEO-optimized architectures to improve organic search visibility for client sites.

Frontend Web Developer Intern | Feb 2022 - Oct 2022

Health Pay (Internship, On-site) | Cairo, Egypt

- Contributed to frontend codebase updates using Angular, HTML, and CSS.
- Developed interactive features and executed complex responsive layout adjustments.

SELECTED PROJECTS

Babu POS / Dashboard: Angular | TypeScript | RESTful APIs | ngx-translate | i18n | RTL

Developed a comprehensive restaurant POS and management system using Angular and TypeScript, supporting Arabic and English localization with dynamic RTL/LTR layout switching. Integrated RESTful APIs across 11+ business modules, including Products, Sales & Invoices, Kitchen, Purchases, Accounting, Stock, Management, Administration, and Settings, with supporting features for product variations, categories, brands, units, branches, orders, taxes, modifiers, and inventory. Built reusable and responsive components for POS operations, Kitchen Station Management, Dashboard & Analytics, and 20+ reports

Cairah Website: Angular | TypeScript | SCSS | RESTful APIs | Reactive Forms | GSAP | ScrollTrigger

Engineered the official AI healthcare landing page using Angular, GSAP, and ScrollTrigger. Integrated backend APIs to dynamically retrieve personalized Q&A results based on user inputs and predefined response ranges. Implemented Reactive Forms for the Early Access Request and Feedback pages with form validation and API integration.

Antika World: Angular | TypeScript | SCSS | GSAP | RESTful APIs

Developed the interactive frontend platform for a luxury urban destination in Sofia, integrating RESTful APIs with a content management dashboard to dynamically manage and display website content, including paragraphs, images, and business portfolio information.

Deelz CRM: Angular | TypeScript | Tailwind CSS | RESTful APIs

Built and refactored a comprehensive dashboard project using standalone Angular architecture and Tailwind CSS, resolving complex nested routing structures.

LMS Platform: Angular | HTML5 | SCSS | Tailwind CSS | RESTful APIs

Developed the frontend for a course management platform using Angular, HTML5, SCSS, and Tailwind CSS. Built responsive course-related pages and integrated RESTful APIs for selected features.

EDUCATION & CERTIFICATIONS

Bachelor of Commerce - Tanta University

Certifications: Angular (Udemy, 2024), JavaScript Algorithms & Data Structures (freeCodeCamp, 2023).

Languages: Arabic (Native), English (Professional Working Proficiency).
